

NONNUNQUAM REDEUNT!

Monstra nobiscum!

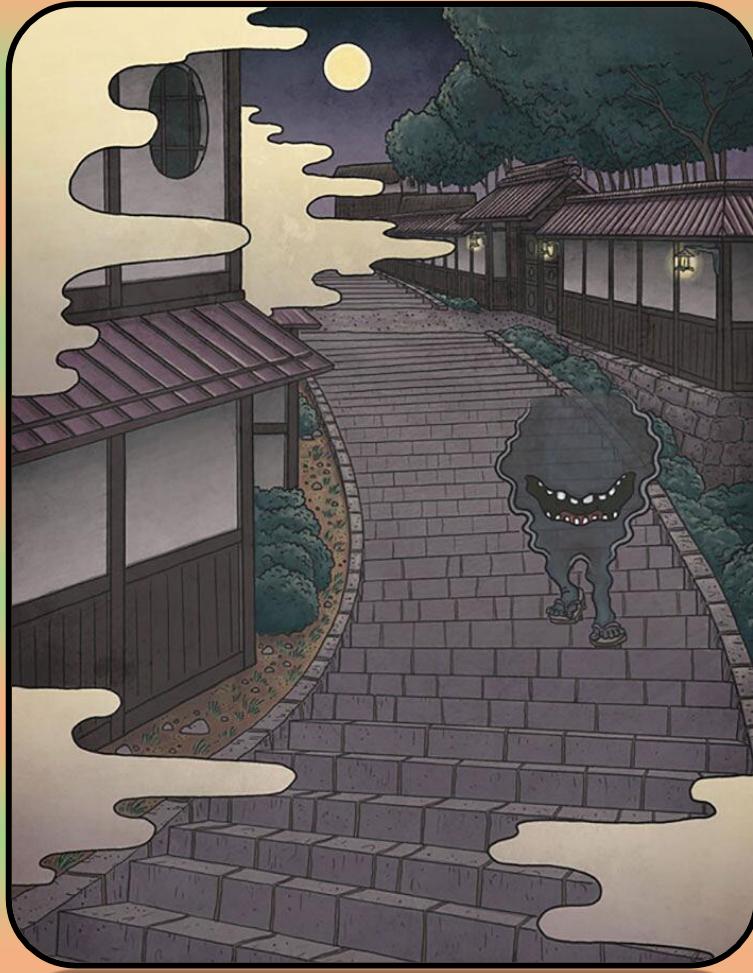

Umbrella pluvia gravata, pannus luridus et iam laceratus: illos
ieceratis, pro certo habentes et nec illi iam videre? Sed autem non!
Ecce tsukumogama et karakasa, prompti post centum annos ad se
contra dominum vindicandos!

Sed nec timetote: cum parva lingua est solum iocum!

**Erat nox nimbosa et tenebrosa,
cum apparuit Obotoguruma,
currus “nubilosus ”, strigae vultu
et dente acuto
qui mortem minabatur
etiamsi mutus.**

**Beto beto" aliquis noctu clamat: est parvum monstrum est quod
solum vult iocari.**

"Betobeto-san" responde ne tremore capiaris.
